"Canada's Fighting Forces"

A return engagement of the pictures entitled "Canada's Fighting Forces" has been arranged for tomorrow (Friday) evening. If you did not hear the description of the battles of Ypres and St. Julien by Corp. White, D.C.M., on Tuesday evening, do not fail to hear it at the return engagement tomorrow evening.

"Charley's Aunt"

"Charley's Aunt," the play that has been written and talked about more than any other comedy production in the amusement field, will be presented at the Angus Theatre, on Wednesday, July 12. The place is full of extraordinary surprises, a clean fun, that keeps its audience in a constantly excited attitude and almost continuous laughter. It is, in fact, a farce quite out of the ordinary, and furnishes more thrills and tense moments than one can realize as emanating from a single evening's entertainment.

It is a clean play, presented by a company of admirable comedians and comedienne, and played with a rapidity that threatens to break the speed limit, and it is filled to the brim with logical tricks and swiftly moving surprises that keep the interest of the auditor at concert pitch throughout its enactment. In short, it is a charming farce charmingly presented, and as full of laughs as the small boy is full of ice cream after coming home from a church festival.

The United Producing Company, who are presenting it, claim it will give better satisfaction than "Within the Law" or any other of "the many attractions" of the cast, and the strongest yet offered under their banner.

The Red Feather Photo-play for Wednesday night is a live act comedy drama "Drugged Waters."

Owing to the demand for a return engagement of "Canada's Fighting Forces," the "Master Key" will be shown on Saturday evening only.

Do not fail to see the final episode of the "Broken Coin" on Monday and Tuesday.

That the 1st Battalion has been in action "somewhere in France" and has suffered rather severely is evidenced by the casualty list received last night and while details regarding the action in which this unit, which departed from Edmonton on April 1, are lacking, the fact that several who are known to have left Edmonton only three months ago today appear upon the list would indicate that much of the men who some time the names of men who left with drafts of the 1st from Calgary have been appearing on the daily lists, but most of them in last night's list left with Col. Harwood this spring. Edmonton battalions have been hit unusually hard in the recent engagements, and the list published this morning contains the names of no less than fifteen men known to have enlisted in this city.

A fair audience gathered at the Angus Theatre on Tuesday evening to hear Corporal White, D.C.M., and see the splendid pictures of Canada's fighting forces. The Corporal gave a full description of the battles in which he took part, and also the treatment given Capt. Wells, while a German prisoner of war. The pictures, sponsored by the Dominion government, were exceptionally fine, and gave a vivid idea of the part Canada is taking in this great world war, and those privileged to see them must have felt proud of the boys they have sent forth. These pictures will be shown again on Friday evening of this week.

Don't forget the dance under the auspices of the 223rd Battalion, in Angus Hall this Thursday evening. The orchestra will be furnished by Messrs. H. J. Montgomery, J. West, H. W. Wright, F. F. Ball, R. Sobiech, A. B. McArthur, C. D. Evans, C. B. McArthur, E. G. Carier, and P. A. McArthur.

The Driand and Critteron Hotels are preparing to meet the new conditions created by the incoming prohibition on Saturday of this week. The bar will be continued, at least for a time, where soft drinks of all kinds may be procured.

Capt. and Mrs. Thompson, of the Salvation Army, who have been stationed here for some time, left on Wednesday for Peace River Crossing where they will endeavor to establish a corps. This is the first of the part of the Army to undertake pioneer work in the north country, and it reflects much credit on the ability of Capt. Thompson that he should be called for this important work.

Successful Picnic

A successful picnic under the auspices of the Wetaskiwin Agricultural Society was held on the farm of P. C. Peterson, north east corner of Herd Lake, on Friday last. Interesting addresses were given by Mr. E. H. Malcolm, of the hall insurance board of Alberta, R. N. Shaw, secretary of the Wetaskiwin Agricultural Society, J. F. Fowler and H. J. Montgomery, M.P.P. E. R. Rasmuson was the chairman. The baseball game, Wetaskiwin vs Herd Lake, proved to be very interesting, and the game was close, but the score of 9-4 in favor of the city world to dictate. Foot races and other athletic events were also indulged in, and were keenly contested. The occasion concluded with a big dance in Mr. Peterson's new barn in the evening, to which a large crowd attended. The picnic was a financial success, and the committee, namely, Messrs. E. R. Rasmuson, P. C. Peterson and John Berry are to be highly commended for their enterprising and successfully conducting the affair.</

"For two years, I was a victim of
Acute Indigestion and Gas In The
Stomach. It afterwards attacked my
Heart and I had pains all over my body,
so that I could hardly move around.
I tried all kinds of medicine but none

now I am well, after using only three

EXTERMINATE THE HOUSE FLY

The house fly is the dirtiest of all
vermin. It visits the filthiest places
imaginable and then distributes the
germs of typhoid, infantile diarrhoea,
and other intestinal diseases, and
probably assists in the spread of
tuberculosis. Hence, it is not merely
very dirty but exceedingly danger-
ous as well.

Means of protection against flies
are common; doors and windows can
be screened, fly papers, traps, "awa-
ters", and poison may be employed
to kill those that enter the house.
But these purely defensive measures
are not enough. The war must be
carried into the enemies' country; the
fly must be exterminated.

To wage war with the adult fly is
to go into a hopeless battle that can
never be decided in man's favor.
The flies form such a numerous host
that it is impossible to kill them
all in a single season and a very
few survivors are sufficient to propa-
gate an equally numerous host the
season following.

The only way to exterminate the
fly is to attack it in the larval or
maggot form. Flies lay their eggs
in manure or garbage; ten days from
the time of hatching the maggots e-
merge as winged insects, fully equip-
ped for disease spreading bacteria.
But a city with clean backyards and
clean waste premises would be a
sterile city for flies. They have ab-
solutely no food in the clean places.
The plan of campaign against these
annoying and dangerous pests is thus
plain: we must clean up, not once
or twice a year, but all the time.
City by-laws should require all own-
ers of stables to keep manure in a
tight, covered box. This treatment
removed twice a week. A similar
law should apply to the disposal of
garbage. Persons with dirty back-
yards should be prosecuted. Privies
should be abolished wherever possible
and, where allowed, should be
kept continuously cleaned and aban-
doned twice weekly. The piling of
refuse in disgusting and unsightly
"dumps" should never be permitted.
If the town cannot afford an inciner-
ator, the refuse should be buried.

Experiments conducted by the U.S.
Department of Agriculture have re-
vealed that the fly larvae in manure
and other refuse may be killed with
treatment of borax, one pound of
borax being sufficient to treat one
foot or very nearly 11 bushels of
manure. If used in larger quantities
the borax may prove injurious to
plants. The borax should be applic-
ed over the manure, particularly
near the edges of the pile, which
should then be sprinkled with four
gallons of water. This treatment
will kill 98 to 99 per cent of all the
larvae in the manure. At 11 cents
per pound for borax, it is estimated
that the cost would be 15 cents per
horse per year. This cost could be
very greatly reduced by employing
caliche colemanite instead of borax,
if the former were imported in large
quantities. One pound of colemanite
will treat 11 bushels of manure
and its larvicide action is as effec-
tive as that of borax.

RUSSIANS DISCOVER

DESTRUCTIVE SHELL

Petrograd, June 26.—The Russian
armies have been magnificent through-
out the war, but on the present
occasion has exceeded even its own
highest records. The effect upon the
enemy has been terrifying, and a gen-
eral panic usually has ensued. The
Russians have invented a new shell
and have used it in incredible
quantities. Its deadly results are re-
flected in the official bulletins. Nothing
can be said, however, about the nature
of the new shell. It is said that
it is admits of no effective defensive
reply. The universities of Russia
have been busily employed for the
last months past with one object
other in a search for some superlat-
ive form of effective shell.

HOW PROHIBITION IS "KILLING"
DENVER

Denver under prohibition! The very
idea is a startling one, and when
Colorado went dry on January 1st,
1916, the "wets" freely predicted the
utter ruin of business and even some
of the "drys" wondered how Denver
would stand it. But nearly six months
have gone, and the business men
of Denver are beginning to realize
that they are not dead yet, and
some of them are even hopeful of
the future. Here are a few of the facts. The
Gas and Electric Light Co. had pro-
posed a drop of \$15,000 a month,
but instead the very first month
showed a gain of \$10,000. The banks
also had been afraid of the dry spell
but the first month gave them \$2,000
new deposits, which aggregated \$87,
000. The department stores report
their collections are just 24 per cent
ahead of a year ago. There has
been, however, quite a heavy slump
reported by the pawnshops. Prohibi-
tion seems to be distinctly unfavor-
able to them, and it hits the under-
takers hard. The Italian Methodist
Episcopal Mission has also been af-
fected. This mission had been fur-
nishing free meals for 150 poor chil-
dren, and since prohibition went in-
to force they have not been able to
find the poor children. They now
eat at home. In building permits
for February, Denver showed an in-
crease of 135 per cent over last year.
The city's average income for 1915
while the average income for 14
United States cities was only 21 per
cent. Evidently the lack of whiskey
does not kill a city very rapidly.

ADDED ANOTHER

PAGE TO TRADITIONS

OF BRITISH NAVY

London, June 24.—An official com-
munication gives an account of a re-
cent visit by King George and ad-
dressed by the monarch to the re-
presentatives of the units of the
fleet in port. In his address King
George said much for the navy.
"Admiral Jellicoe and officers and
men of the grand fleet."

"You waited nearly two years
with patience and courage, and en-
gaging the enemy's fleet. I can well
understand how trying was this per-
formance, and how great your relief
when you knew on May 31 that the
enemy had been sighted. The unfavor-
able weather conditions and approach-
ing darkness prevented that complete
result which you all expected. But you
did all possible in the circumstances
and showed the enemy that the har-
bors and inflicted on him very severe
losses. You added another page to
the glorious traditions of the Brit-
ish navy. You could not do more.
For your splendid work I thank you.
At the conclusion of his visit the
King said the following message to
Admiral Jellicoe:

"I am thankful that I had the
opportunity of congratulating you
and the grand fleet. The results of
the recent engagement in the North
Sea. Assuring all ranks and ratings
that the name of the British navy
never stood higher in the eyes of
their countrymen, whose pride and
confidence in their achievements are
unshaken. Good luck and God speed
May your future efforts be blessed
with complete success."

MOUNTED POLICE

HAVE ROUNDED UP

WYLDIE PLUMMER

Edmonton, June 26.—The untiring
efforts of the Royal North West
Mounted Police, who have the reputa-
tion of always getting their man,
have again succeeded after the lapse
of three years, in the arrest at
Libby, Mont., of one Wyldie Plummer
alleged murderer. Plummer lived in
the Cripple Creek district of Alber-
ta up to October 3, 1913, on which
date, it is alleged, he met Peter Lib-
bey, a homesteader to whom he of-
fered a sum of money. The latter de-
manded payment, a quarrel ensued,
and the latter was fatally wounded
dead with a bullet wound in his sto-
mach. Plummer was missing. The
tentacles of the force were flung out
and the alleged murderer was traced
through a letter sent to his wife,
front Libby, signed Mary Jones. An
officer was sent to the town to keep
watch on the post office. A person
evidently called for mail for Mary
Jones, and was arrested. The arrest-
ed person proved to be Plummer and
extradition proceedings are now
being instituted against him. The
police allege that Plummer told his
wife and a man named E. J. Jones,
that he had shot Libbey, and Jones
will be the principal witness against
the accused man.

A conference of the Northern Al-
berta, Canadian Patriotic Fund rep-
resentatives will be held in Edmonton
on July 3, for the purpose of decid-
ing whether money should be obtain-
ed by voluntary subscriptions, by
taxation or by both combined, and
if by taxation, what governing body
or bodies should assume this respon-
sibility, dominion, provincial, or mu-
nicipal. Sir Herbert Ames, honor-
ary secretary of the fund, of that town,
the principal speaker at the meeting
and public officials, members of par-
liament, members, presidents and
secretaries of the fund will attend.

THE NATION'S BUSINESS

The abnormal rains of many parts
of Canada have so interfered with
farm work that it is now too late
to plant any of the crops. Much
land will go idle, or, if planted with
the usual crops, will give poor re-
sults. This means farmers will have
less money to spend with their local
merchants for supplies of all kinds;
manufacturers will have fewer orders;
banks will have smaller deposits;
there will be less money and higher
rates for investments in municipal
bonds and other securities.

But live ministers of agriculture at
Ottawa could have retrieved much
of the situation. For the lastest farm
revenue this year they will be di-
rectly to blame.

At agricultural colleges, and a
departmental far, we have a lot
of splendid public servants. No men
in Canada give better results for
the money we pay them. As a re-
sult of experiments they know ex-
actly what it is most profitable to
plant at this late date, and what is
not.

For example, it is too late to
plant wheat, barley or oats, but
potatoes show that peas, beans and
other crops may be put in. The triv-
ial is that very few farmers know
the results which few attend to, and
they have not told them, or if they
have they used fourteenth century
finger pointing. That is, calling
meetings which few attend to, and
bulletins which few read, because
neither are timely. All the
farmers can be reached by the ex-
cels of pursued by modern merchants
and manufacturers. They talk to
the people they want to teach in the
papers read closely by them. There
are no worth while farmers anywhere
in Canada who are not readers of
their local town, or village, news-
paper. To tell them, in the columns
of these papers, what experiments of
our best farmers showed, at times
life these, would cost little and
lead to millions of dollars worth of
increased production. The farmers
are yearning for this very informa-
tion.

We are told to economize to meet
the tremendous burden which war
is inflicting upon us, but if we cur-
tail our purchases, there will be that
much less employment for the work-
ers in our shops and factories. The
business-like method is to increase
production that we may have more
money. As directors general of ag-
riculture some of our ministers are
a joke. No spend millions of dollars
what to do, then neglect to tell the
people for whom the work is done,
who ought to know, who want to
learn—anything about it.

This is a subject the press and a
business man should agitate. It will
mean more money.

A million spent in intelligent talk
in the small daily and country week-
ly press, telling the farmers the mo-
tivated murder; Plummer lives
may—making things to do, will add
tons of millions for distribution a-
mong all classes in Canada—Finan-
cial Post.

TEN THOUSAND CASUALTIES IN

LISTS ALREADY

Ottawa, June 26.—Approximately
10,000 names have appeared in the
casualty lists issued by the militia
department since the Germans made
there first attack on the Ypres salient
on June 2. As approximately
23,000 casualties have previously
been reported, this means that in
number the casualties equal the first
Canadian contingent which sailed
from Quebec in the latter part of
October, 1914. It is likely that the
loss will continue to be heavy for
a few days yet, and that before all
the names of those who suffered in
the recent German offensive and the
successful Canadian counter-attack
are in, they will exceed 12,000. It
is also expected that so long as the
Canadians hold the Ypres salient
under ordinary conditions of trench
warfare, the casualties will run from
one hundred to two hundred a day.

Mr. L. W. Puffer, of Lacombe,

has filed an appeal from the judgment
of the court at Lacombe, of that town,
who convicted him of selling meat
without a license. The appeal will
be heard by Judge McFarlay at Lac-
ombe on August 30.

VIKING HAS GAS FLOW.

Viking gas well No. 3 came in last
week and at a depth of 2295 feet a
volume of 5,000,000 cubic feet of nat-
ural gas was discovered.

The drillers at the Viking field to-
day going down deeper than 2295
feet to see if a greater volume of
gas can be found. In well No. 2 at
a depth of 2370, oil was discovered,
while well No. 1 struck its main flow
at 2540 feet, when over 9,000,000 cu-
bic feet of gas was given off.

This makes three producing wells
in the Viking area now. The drill-
ers are busy on No. 4 well, and in
a month's time the productiveness of
this well will be known.

W. R. Martin, who has charge of
the drilling operations, expects to
strike a heavy flow of gas in No. 3
well, he says, at about 2310 feet,
that should, he thinks, give a flow
of 15,000,000 cubic feet per day.

for legally closing on June 28 (Fri-

Edmonton, June 28.—A monster recruiting meeting was held this evening at Dominion Square, when the chief speaker was Major G.W. Kerby, chief recruiting officer for the province. He made a strong appeal for recruits for the local battalions. Other speakers were Lieut.-Col. Dennis, of the C.P.R.; Colonel J. Cornwall, of the Irish Guards; Lieut.-Col. Lepron of the French Canadian Battalion; Lieut.-Colonel Jamieson, of the Alberta Dragons, who has just returned from the front; and others. At the conclusion of the meeting, a large number of men were signed up by the recruiting officers. The rally was arranged by Captain A.S. Dulos, who has been appointed chief recruiting officer for Edmonton.

Over fifty-four thousand dollars were paid out at Coleman on Saturday last, being the largest two weeks pay in the history of that prosperous mining town.

HERE IS STATUS

OF HOMESTEADER

WHO JOINS ARMY

Ottawa, June 27.—There have been innumerable inquiries at Ottawa as to the status of homesteaders who have enlisted for active service. As their have been many rumors by the department and men from all parts of the Dominion are interested in this various rulings, a summary is of value.

The Dominion lands act, as it now stands, makes certain provision for military service. Section 22 of the act provides that a Canadian volunteer holding a homestead may count his active military service as performance of residence. Section 22 of the act provides that any such volunteer who is disabled by wounds or illness while on active service may receive patent forthwith.

To supplement these provisions orders in council were passed in May and September of 1915 providing that when an entrant had been killed on active service patent might be issued without calling on the heirs to perform any further settlement duties and without requiring a formal application for patent or the filing of letters of administration. The patent when issued will be forwarded to the regular for the district in which the land is situated and it would then rest with the heirs to obtain the necessary authority from the courts to deal with the land.

Shortly after the outbreak of the war there arose the question of extending the same privileges to British and foreign recruits. In May 1915, an order was passed authorizing this action. The wording of the order being somewhat ambiguous and the question of its interpretation having been raised an amending order was passed in September of the same year. This authorized not only that all privileges conferred to Canadian soldiers should be extended to all recruits fighting on the side of Great Britain and the Allies of Great Britain, but that a patent might be issued to disabled soldiers without calling for the performance of any further duties and without requiring an application for patent, and also providing for the issue of patent in the name of a deceased entrant without requiring a further duties of the making of a formal application for patent or filing of letters of administration. These orders were extended so as to grant the same concessions to the naval service as to the military service.

The question has arisen of a man taking out a homestead entry the day he enlisted or after he had been enlisted. In the case of a British recruit who secured a homestead entry on the same day he was called to the colors, he has been given the same privileges as men who had their homesteads when they enlisted. However, Hon. Dr. Roche, minister of interior, has ruled that persons who secured entry after their enlistment or of their recall to the colors will not be granted protection during the term of their military service and will not further participate in the benefits of the order-in-council. Under a ruling of May 13, 1916, when the entry is made after enlistment the homesteader is killed in action the local representative will be expected to complete the duties other than residence in the same way as in ordinary cases of homestead entry.

INNOVATION IN RAILWAY

PASSENGER EQUIPMENT

A departure from the practice of all transcontinental lines has been made by the Grand Trunk Pacific Railway by their placing a service on transcontinental trains between Winnipeg and Prince Rupert, a new type of equipment, which will be known as the parlor observation car.

The whole interior of these cars will be devoted to the comfort and convenience of passengers for lounging and sight seeing purposes, no portion being used for sleeping accommodation. Smoking is permitted throughout the car with the exception of a special parlor section assigned particularly to the ladies.

The rear, or observation end of these cars is so constructed as to give every facility for passengers to view the scenery, the Grand Trunk Pacific route through Nature's Scenic Wonderland. The observation platform is practically as large as the car, larger than is usually found on observation cars, providing added advantage for those passengers desiring to travel "outdoors." Added improvements that eliminate the discomfort of cinders, dust, etc. are provided.

Electrically operated exhaust fans, as in all other Grand Trunk Pacific standard sleeping car equipment, in addition to the usual facilities for ventilation are furnished, guaranteeing an abundant supply of fresh air and the elimination of smoke, an added feature of these cars. Porters in charge serve light refreshments if desired.

These cars are operated for the exclusive use and convenience of passengers holding standard sleeping car tickets. No extra charge is made for this exceptional service.

The body was found by a search party, who had become alarmed at his absence, and after a long search came upon the scene of the tragedy Sunday afternoon—All Saints Press.

Complaint has been made sometimes that autoists are too fond of using the whole road to the utter disregard of the horses drawn vehicles. The shoe seems to be the other foot now, however, as a decided kick has recently been made that some farmers driving along the road refuse to give way the least when an auto comes along behind a desire to pass. It seems that there is considerable friction yet to overcome between the two classes. The autoist and the horseman have an equal right to the use of our highways and the least one could reasonably expect is common courtesy to one another when meeting or passing. And if we mistake not there is a heavy penalty for the driver who refuses on request to share up the road with another driver.

The serious conditions in connection with the Irish rebellion were brought home to W. M. Charters when he received word of the death of his cousin, Dr. Charles Hyland, who was shot one morning just as he stepped through the back door of his residence. The house was being used by the regular soldiers at the time and it is supposed he was taken for one of them by a rebel sharpshooter. He was thirty years of age and had only been married a couple of years leaving a widow and a baby son six months old. A brother, Hugh Hyland, who spent a few months in Leinster with W. M. Charters about three years ago and enlisted with the first Edmonton contingent, is now a lieutenant with the Royal Irish Rifles—Leduc Representative.

His description is as follows: age, height, 5 feet 7 inches, brown hair, blue eyes, very thin complexion prominent Wellington nose.

Information of great interest and large sum of money await him.

Will anyone knowing his present whereabouts notify Staff Captain Sims, 289 Fountain Street, Winnipeg, who will pass on the information.

BURDOCK BLOOD BITTERS CURED DYSPEPSIA.

Unless the stomach is kept in good shape your food will not be properly but will cause a rising and souring of food, a feeling of heaviness in the stomach, pain in the stomach or a feeling as if a heavy weight were lying there.

Burdock Blood Bitters cannot be surpassed as a cure for dyspepsia and all its allied troubles.

Mr. James R. Durns, Balmain, N.S., writes: "About two years ago I got troubled with dyspepsia, and could not get any relief. I tried most everything, but even the doctor seemed to do me no good. One day a friend told me to try Burdock Blood Bitters, as he had seen it advertised. I did so, and by the time the first bottle was gone I felt better, and after taking three bottles I was completely cured. I highly recommend it to all sufferers from dyspepsia."

BREAK WITH MEXICO HAS BEEN AVOIDED AT LEAST FOR THIS PRESENT TIME

El Paso, Texas, June 28.—General Jucheco Treviño has ordered that the 28 American prisoners interned in the penitentiary at Chihuahua be taken to Juarez, and there, with their arms and accoutrements, be released. This information was received at Juarez today. Mexican authorities asserted that the prisoners are expected to reach Juarez tomorrow.

It is well known that breaking bottles or throwing broken bottles on the road is a criminal offense. This is a warning to anyone doing such a thing—it is unnecessary to add that offenders will be punished.

The homes which refuse to furnish a good Piano or Organ for the musical education of the boys and girls growing up in them, are placing a serious handicap upon the social future and spiritual nature of the young people whether they realize it or not, and by with-holding the encouragement and uplift which music in the home surely brings, are paving the way for the early departure of the boys and girls from the home.

Besides music, every home ought to have a high class Sewing Machine, because it lightens the work for the woman, and at the same time it lightens the strain on the man's pocket book. Just think it over, and come to

Letter From the Front

The following, from Pte. Girard H. West, to his mother, will be read with the keenest interest by his many friends in the city and district.

Dear Mother,—I received your letter of April 23, yesterday also one from Saville in England, and one from Hope. We have not had any leave since we left Canada, so I have not had a chance to have my picture taken. We get very good food here and there are a very nice lot of boys in this 28th Bn. I am feeling fine and standing the excitement alright, so far. We are to be let just now, the rats are pretty bad but with this exception, things are quite comfortable. I can't say very much in a letter except I am glad I came over. Will be very glad to hear from you often and hope you are settled comfortably at home.

Rosa is staying in England, so N.C.O.'s are allowed to go to the front as N.C.O.'s but must revert to Privates give my regards to all my friends.

Your loving son, (Signed),

No. 425473, 28th Bn., I.B.F., 8th Brigade, 2nd Division, Army Post Office, London, England.

W. C. T. U.

Attention of the W.C.T.U. workers and friends is called to the accounts of the sessions of the Dominion W.C.T.U. Convention, which are appearing in the daily papers this week. The convention has met in Regina, and delegates from coast to coast have attended. Mrs. McClung, convention speaker, urges Alberta women to make use of every opportunity to inform themselves on "Chivalry" in order that they may vote intelligently. The future man's vote must be largely that of foreigners, and "I don't care" is a very common expression in regard to the "News from Home" budgets, have been received from the men at the front during the last few weeks, which seem to more than repay the little extra effort to prepare them. There is still need of more workers for although we have mailed about 100 books since March that means that only a limited number are receiving them regularly.

Please send in the soldiers' addresses. At present only thirty are available, and we know there should be many others, now that the battalions are being divided into drafts. The news from home will be even more valued.

During the month of July, books can be had and addresses sent to Mrs. J. H. Martin, Lorne St., All explanation regarding the preparation of the budgets will be gladly given.

PRIDE

Here I sit and knit and knit, Watching golden sunbeams flit, Here and there about the room, Just like shuttles in a loom. Knit and knit the life long day, Since my ladle went away.

Though I might have answered No! When he said he had to go, I just kissed his anxious face, Held him in a tight embrace, Whispered of my love and pride, But he heart within me died.

When the twilight spills again, Through the latticed window pane I creep slowly to the gate, Listen then and wait and wait, Wait for her the footstep fall, Of my boy, my all in all.

Kiss of eye and lip of limb, My, his mother's proud of him, So I sit and knit and knit, Watching how the sunbeams flit, All about the empty room, Just like shuttles in a loom. —J. Sydney R.

A Sluggish Liver CAUSES LOTS OF TROUBLE.

Unless the liver is working properly you may look forward to a great many troubles arising, such as constipation, severe headaches, bilious headaches, sick headaches, jaundice, sick stomach, etc.

Mr. J. H. Martin, Lorne St., writes: "I take pleasure in writing you concerning the great value of your pills for a sluggish liver. When my liver got bad I would have severe headaches after using a couple of vials of your pills I have not been bothered with the headaches any more."

Milburn's Lax-Liver Pills are, without a doubt, the best liver regulator on the market today. Twenty-five years of a reputation should surely prove this. Milburn's Lax-Liver Pills are 25 cents per vial, 5 vials for \$1.00; for sale at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
